- * Marx, Karl. *Capital*. Vol. 1. Translated by Ben Fowkes. New York: Penguin, 1990. Існує багато видань «Капіталу» українською мовою, але найпоширеніший варіант тексту — той, що при радянській владі виконував роль «канонічного» і фігурував у повному зібрannі творів Маркса й Енгельса, — перекладено не з німецької, а з російської мови. Український переклад «Капіталу» з німецької існує, проте майже не відомий широкій публіці: радянська влада його дезавуувала з ідеологічних міркувань — національним республікам відмовляли в праві на самостійний, поза більшовицькими рамками, марксизм.

- 42 Тобто порцелянової. Прим. пер.
- 43 У ранньомодерній Європі систему мір і ваг ще не було уніфіковано. У рецепті йдеться, очевидно, про каву на велику сім'ю. «20 фунтів води» — це десь 7–9 літрів. Отже, 3–4 літри готового напою — еквівалент 15–20 чашок сучасного «американо». Найпевніше, первісно каву не «варили», а «зварювали», як чай. Прим. пер.
